Products Description

This series keystone jacks work together with high speed cables, cords and panels to provide performance beyond proposed Category 6 standards, a new feature of this series jack is a universal colored wiring label that eliminates the need for separate codes for T568A/B wiring scheme.

Features and benefits

- Available in Cat6, T568A/B wiring, meet or exceed TIA/EIA Cat6 requirements
- Housing : high temperature thermoplastic
- Compact jack design, 8 positions and 8 conductors
- Contact : phosphor bronze , phosphor bronze with 6 to 50 μ " gold plate
- Accept 22-26 AWG solid with a insulation diameter of 0.4-0.6 mm
- Easy to be terminated, low attenuation loss and high return loss
- High reliability and superior performance
- Available in different colors

Installment instructions

1 Cut the pair separator and rip cord (if present) as close as possible to the jacket. Note: Be careful not to nick conductors.

2 View the color on the module to determine proper location of the conductors based upon preferred wiring scheme.

3 Insert each wire into the appropriate channel according to the color code on the module, keep the cable perpendicular to the block.

4 Terminate wires using Linkbasic tool (P/N: TLA01) or equivalent.

5 Install dust caps by snapping into place as shown. Note: The cable jacket should remain outside the dust caps as shown.
