Products Description

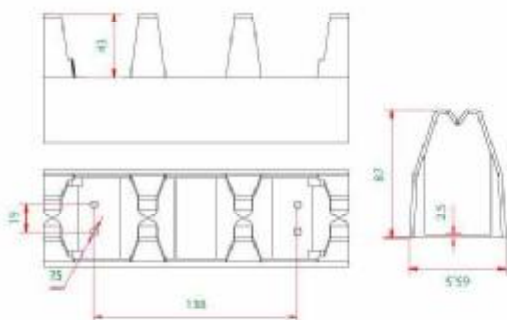

The Cable Management is a moulded plastic frame which is placed between each 110 wiring block and at the top of each column of 110 blocks. It serves as a horizontal trough for the routing of patch cords and cross-connect wire. It mounts on standard 19" racks or cabinets and provided a clean, beautiful and simple means of organizing from small to large bundles of cables and patch cord.

Features and benefits

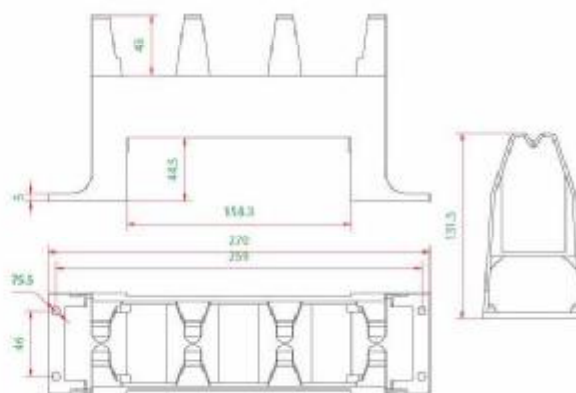

- Mount to standard EIA 19" racks
- Suitable for installing on the panel, Help maintain cable bend radius.
- Light weight ,easy to install or remove
