 **LENKENG® 朗强**  
**Leader of High-Clear Video Management**

FLY7503 Series: FLY7503M / FLY7503BNC

Origin: China

Brand: LENKENG

Name: Component/S-video to VGA Converter

### **Product Features:**

- | Video input Interface: RCA and BNC interfaces (optional);
- | 3 Input: 1 video input; 1 S-video input; 1 VGA signal input;
- | Switch by “input” button on the box between 3 inputs;
- | 1 Output 1 VGA;
- | Power Supply: DC-5V; external;
- | Video Format Conversion: translate CVBS, S-video signal to VGA signal.
- | PAL / NTSC
- | Resolution: 800×600/60HZ,800×600/75HZ,1024×768/60HZ
- | Parameters like lightness, hue, contrast, saturation, color, etc. adjustable via button and auto-stored when power off.
- | Image freezing function;;
- | On Screen Display
- | Optional function: remote control
- | Plug and play. No installation software is needed.

## Interface Connection:

Name	Explain
(1)VGA Out	To connect computer display
(2)Video In	To connect fountainhead of video frequency(eg:DVD. Camera head etc)
(3)Svideo In	To connect signal source with S end
(4)VGA In	To connect host computer
(5)DC 5V	To connect power supply
(6)Remote	To connect infrared acceptor(RC)
