SMB-F125 Scrap Metal Baler

Load Many Scrap Metals In ,

One High Density Bale Out !

Benefits:

- SMB-F125 suitable for compacting scraps Scrap metals, scrap coppers, scrap aluminum etc
- Extremely high production efficiency
- Max produce 80kgs per bale
- With automatic ejecting bale system
- Three rams compressing
- Safety warning marks
- CE marks

Technical Specifications:

Weight Of Bale :80kgs

Main Ram Force:125tons

BaleDimension:400×300×300mm

PressingBox :1200×700×600mm

Output:1500kgs per hour

Motor Power:15kw

Diemnsion:3180×2240×1770mm

Weight:6tons

Operation Instructions

Connect machines to power(220/380V/400/415V)
