## Jaw Crusher:

**Usage:** crushing various materials like stone, granite, trap rock, coke, coal, manganese ore, iron ore, emery, fused aluminum, oxide, fused calcium carbide, lime stone, quartzite, alloys, etc, the largest compression resistance of the material to be crushed is 320MPa.

**Features:** High ratio of crushing, homogeneous final grain size, simple structure, reliable working condition, easy maintenance, low operating cost..

### Technical Data

Model	Maximum Feed size(mm)	Adjustment range(mm)	Capacity(T/H)	Power of main frame(kw)
PE150X250	125	10-40	1-3	5.5
PE250X400	200	20-50	5-20	15
PE400X600	350	40-100	15-60	30-37
PE500X750	425	50-100	40-110	45-55
PE600X900	480	65-160	90-180	55-75
PE750X1060	630	80-140	110-320	90-110
PE900X1200	750	95-165	220-450	110-132
PEX250X750	210	25-60	15-50	22-30
PEX250X1000	210	25-60	15-50	30-37
PEX250-1200	210	25-60	20-60	37-45

Remarks:

**Delivery time:** 30 days after get deposit.

**Payment Item:** T/T or L/C

**Packing:** simple packing
