Features

The ergonomic design will change your sitting significantly, and relax the eyes, neck, shoulders and back.

The Stand (AIR) can help you save space, improve the air movement (within the notebook) accelerate the removal of the heat.

6 different angles are available for the appropriate perspective.

A hub with 4 USB ports can connect the laptop with multiple USB devices.

The "LAPTOP STAND (AIR)" may change your laptop to a nice new desktop computer and enhance your mood.

You can connect your frequently used peripherals such as printers, mice, scanners, digital cameras, to USB ports on the HUB.
