

FIBER OPTICAL PATCH PANEL P/N: FPD01-A, FPD11-6-A, FPD22-6-A, FPD22-8-A, FPD55-12-A, FPD00-A

DESCRIPTION

- This fiber patch panel fits for ST or SC adapter(dual port) , it has the function of splicing, distribution, administration, protection and storage for fiber cables. With our high quality materials and elegant design, it makes our products extra valuable to buyers. To effectively manage optical fiber terminations and splices, We provide a termination solution for LAN applications requiring fully enclosed and lockable wall mount enclosures. These units are equipped with cable management reels and cable routing accessories to limit bend radius and add strain relief control.
- Access point for fiber termination and protection.
- Using the matching adapter plate, with a flexible and customized patch panel design.
- It is compatible with most industry standard connectors: ST compatible, SC, FC and LC.
- Good ergonomic design, rugged construction and compact layout for your fiber termination
- And continue to provide effective protection.

APPLICATION

- 19-inch equipment rack or cabinet
- Communications room or wiring closet of the main trunk termination
- Telecom equipment rack

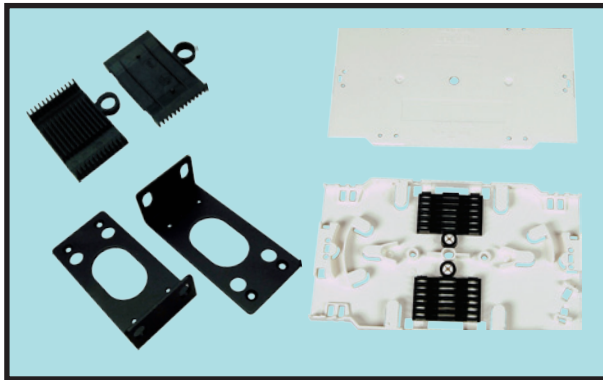

SPECIFICATION

- Maximum capacity of the connector: 36 pin (3 adapter board)

PHYSICAL CHARACTERISTICS

- Color: Black (RAL9004)
- Shell made of high quality aluminum alloy plate
