DW1410 laser engraving and cutting machine

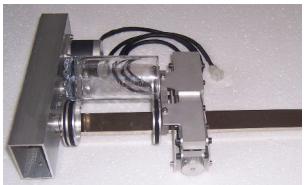

Specifications:	
Model	DW1410
Working area :	140cm*100cm / 55.2in*39.3in (L*W)
Laser power :	180W
Laser type :	CO2 sealed laser tube,water-cooled
Cutting speed :	0-5000mm/min
Power supply :	220V±10% /50HZ , 110V±10%/60HZ
Min. shaping character :	Letter 2 x 2mm
Graphic format supported:	BMP, PLT, DST, DXF, AI,CDR
Software supported :	CorelDraw, PhotoShop, AutoCAD
Laser Output Control:	1-100% software setting
Highest Scanning Precision:	2000DPI
Resolution ratio :	<0.01mm
Location precision:	<0.01mm
Working temperature:	5℃—40℃
Operating humidity:	5%-95%(without condensed water)
Equipment Dimension:	175cm*131cm*107cm/69in*52in*42in (L*W*H)
Net Weight	450kg
Optional parts :	Up-down worktable, Red light pointer, Auto focus, Rotary device

Machine configuration

Phone: 0086-(0)531-88601773 cell:0086-15169016655 www.dwincnc.com

Laser tube 180w	
Focus lens imported from USA	
Reflect mirror	
Industry chiller	
Air compressor	
Driver	
Linear guide rail	
Mainboard and panel	
Motor	

<p>Red point</p>	
<p>Motorized up and down table (optional parts)</p>	
<p>Rotary device, four wheel (optional) Mainly engraving bottle,cups and big diameter cylinder</p>	
<p>Rotary device with 3 clips (Optinal) .it can engraving small Dia cylinder such as pencil. cups etc</p>	

With the help of the special air ,can cut the mild metal for 2mm ,,stainless steel for 1.5mm but 1mm is better

We have the color for your choice and also the structure different for choice
