Company Info

Shenzhen Royear Technology Co, , Ltd is a processional manufacturer and exporter that is concerned with the design, development and production of RF remote control, garage door remote.Locates in shenzhen, with convenient transportation access.

Our well-equipped facilities and excellent quality control throughout all stages of production enables us to guarantee total customer satisfaction.As a result of our high quality products and outstanding customer service, we have gained a global sales network reaching Italy, Spain, France, Poland, Canada, Australia, Brazil ect...

If you are interested in any of our products or would like to discuss a custom order, please feel free to contact us.We are looking forward to forming successful business relationships with new clients around the world in the near feature.

1. Garage Door Opener UG010

Serial/Model NO.	UG010	Production Capacity	20000PCS/Month
Packing	Poly Bag	Type	Button
Usage	Automatic Doors	Signal Transmission	RF Remote Control

Description

Universal RF remote control duplicator is capable of copying most fixed code or learning codeRF remote controls face to face, and can be used in many circumstances, such as cars, gates, garage door openers, barriers, home security systems, etc. So you will always have a backupremote control.

It's very useful to duplicate original remote transmitters to reduce costs, despite the potentials, a self-learning remote control duplicator is less expensive than original devices, and also permits to integrate several different remotes (both operating at the same fre...
