

WBT-1 Electric Scissors

Email: wbt_scissors@126.com

Portable Electric Scissors

1. It is convenient and portable, chargeable and electric plugged, with flexible operation and free turning, it is safe and reliable.
2. It is environmental protection, low consumption and high energy efficient, so it can enhance the production efficiency. electronic cutter
3. By adopting tungsten steel blade, it is in durable service, and the cutter head is easily to be changed. Electric Scissors for cloth
4. With low noise, favorable heat emission, anti-fatigue, and strong continuous work capacity, it can be used both in households and industry.

Electric Cutting Tool is widely used in families or various factories that need cutting 1-10MM(depend on materials) such as underwear, clothing, textile, leather, shoes and hats, furniture, packaging, suitcases and bags, handbags, curtain cloth, and sports goods.

Random Accessories

Fuselage

Cutter head A (sharp blade)

Cutter head B (blunt blade)

Battery

Plug battery

Power adapter

Charging stand

First, plug the DC plug of power adapter into the DC hole of charging stand, and connect to the power. Then, the indicating lamp of the power adapter is green, and the charging stand is flickering with green light. When plug the battery in the charging stand, the flickering green light will be red. During the process of charging, the red light of charging stand illuminates under normal conditions. When the red light is turning to electric scissors green light, the battery is fully charged. Meanwhile, press the lock blocks on both sides of the battery and pull upward, then you can take out the battery. After taking out the battery, you should remember to take out the power adapter from the plug, to save energy.

Point the plug battery to the fuselage and insert it, then pull the power adapter one head into the plug battery, another head inserted into the adapter, then it could work.

Rated Voltage of charger: 100-240V

NI-MH battery, it is environmental protection, low consumption and high energy efficient, so it can enhance the production efficiency.
