Stainless
Steel Mosaic

LF-2131 不锈钢马赛克
Stainless steel mosaic

Size:1000*2000、1219*2438、1219*3048 and so on;
Material:201/202/304/316/430 etc.;
Location:LISCO、BAOXIN、POSCO;
Length:Convention(2000~3048);
Thickness:0.3-3.0mm;Width:10~1240mm;

Combined process of drawing + etching plate, top with the domestic technology as a whole, in the same time enjoy Yong Rong Huagui, yet slick quality! Another stainless steel color stainless steel that retains excellent mechanical properties and corrosion resistance, but also has a variety of beautiful colors, this product adds even more pleasing aesthetic. Is an environmentally friendly decorative materials, excluding methanol and other organic matter, no radiation, fire safety. The surface corrosion resistance, wear resistance more than in the ordinary stainless steel, the main integration with the coloring layer, maintaining the original's basic structure and stainless steel performance, regular stretching and molding. The process works similar with the etching plate, only the surface of the bump-free feel, etching plates and vice versa.
