Application:

IJ automatic tester is designed by IEC156 to test dielectric strength of insulating oil. Adopt industrial single Plate integrated circuit, new model I/O connection, with unique inspection and anti-jamming technology which largely improve its reliability & functionality.

Technology and parameter data:

1. Power supply: AC220V +-10% , 50 HZ
2. Output voltage: 0 to 60KV, 80KV, 100KV (100KV should be special designed)
3. Capacity: 1.6KVA, 2.0KVA
4. Speed of Voltage increase: about 2 kva/s
5. Voltage inspection accuracy: 3%
6. Dielectric strength sensitivity : less than 2KV
7. Wave form distortion : less than 3%
8. Time of dielectric strength: less than 10ms
9. Working Environment: Temperature: 0°C~ 40°C, humidity: max relative humidity 85%
- 10.Storage environment: temperature:-20°C~ 60°C, humidity: max relative humidity 75%
11. Work height: 1500m(If over 1500M, It can be customized)

other supply:

Vacuum Transformer Oil Purifier,
Switch oil filtration,
Turbine oil purifier,
Hydraulic oil purifier,
Diesel oil purifier,
Gear oil purifier,
Fuel oil purifier,
Fire-resistant oil purifier,
light oil purifier,
Insulating oil purifier,
Lube oil Purifier
