

Shanghai Chengchu Plastic Toys Co.,Ltd

Samples in 3 days,
24 Hours inflation tests

If You're a typical buyer, you probably search for experienced suppliers that can help you to build your brand. Time and time again, we've done just that. Over the past 8 years, we've printed some of the most recognizable cartoon characters in the world on our OEM inflatable toys. Hello Kitty, Miffy, Spider Man, Woezel en Pip and more have all been printed in-house by our advanced silkscreen printers. We just need 3~5 days to finish the samples with excellent quality!

To ensure mass production quality, we conduct 24 hours—twice as long as the industry average—inflation tests for each product. We adhere to CE EN 71, REACH, ROHS and ASTM standards and make sure our products pass eco-friendly tests and guarantee safety for end users. With standards like this, no wonder so many big brands in the world choose us for promotion.

Here we want to extend our warm welcome to all business partners and look forward to establishing an excellent long-term relationship with you in the earliest day! Please feel free to contact us anytime. Your demands, we satisfy!
