

Petrol motor series high pressure washer

- 【High pressure pump with three cylinders and ceramic plungers
- 【Quick-change nozzles 5 pcs(0° 15° 25° 40° and detergent)
- 【Tires: 10" pneumatic
- 【High pressure hose: 10m length, steel wire braided rubber pipes
- 【High pressure gun: with safety lock and technical grade
- 【Engine certifications: EPA, CE
- 【Starting system: pull recoil starting
- 【Low oil shut down
- 【Liquid absorption function: low pressure detergent injection

Main Features

- 1.Brass forged pump head, stainless steel inlet and outlet valve
- 2.Regulating relief valve and automatic deloading valve
- 3.The triplex reciprocated pump
- 4.Fine ceramic plunger which has core automatically regulate device
- 5.The forged steel crankshaft, heavy duty bearing
- 6.Integrated valves which combined pressure adjustment and unloading control
- 7.Equipped with protection unit for over charge
- 8.10 meters high pressure hose
- 9.The gun can be choosed (we have long and short gun available)
- 10.High pressure, water save
- 11.Good painting

Applications

1. Car washing or cleaning,
2. Clean adlet, traffic mark or signs,
3. Clean surface of wall, road or bridge removal
4. Clean building template, concrete mixing transportation equipment

Diesel motor series high pressure washer

Engine brand JingDong 186F(A)
 Engine type single cylinder vertical 4 stroke direct injection with wind cooling
 Diesel speed 3600RPM
 Capacity of Fuel tank 5.5L
 Oil consumption 2.04g/kw.h
 Lubrication system Pressure Spatter type
 start 12V battery
 Engine weight 47kg
