BLYJ Series Portable Oil Purifier

1. Product Characteristics

- * BLYJ series portable oil purifier is a new type of oil infusion and purification device, which is developed by our company and easy to take, can infuse and purify oil for different kinds of hydraulic and lubricant equipment at anytime in anywhere. The coarse filter in suction orifice can protect oil pump and increase filter service life. We can design fine filter precision according to customer requirement, in order to achieve required service condition.

2.Application

- * Oil infusion and purification, periodic maintenance for hydraulic and lubricant system.
- * As a by-pass filter in hydraulic and lubricant system during working.

3. Technical Parameters

Model	BLYJ-6 -*/**	BLYJ-10 -*/**	BLYJ-16 -*/**
L/min Rated Flow Rate	6	10	16
Mpa Rated Pressure	0.5		
Mpa Initial Pressure Loss	≤0.02		
μm Coarse Filter Precision	100		
μm Fine Filter Precision	3, 5, 10, 20, 40		
°C Working Temperature	0~80		
kw Motor Power	0.18	0.25	0.35
V Voltage	AC220V, 50Hz		
mm Dimension	550×170×300	600×170×300	600×170×300
