Raw Material: Wild Jujube (Wild Chinese Date)

Wild jujube is rich in carbohydrate, calcium, phosphorus, iron, vitamin and many other nutrient substances, among which the highest content is vitamin C in particular, where there is 1,200mg in 100g of the fruit, 95 times higher than that of grape, twice higher than that of kiwi fruit.

The jujube drinks is recognized as natural healthy drinks. It has the following benefits:
promotes secretion of saliva and quenches thirst,
calms the nerves, softens vascular system,
reduces blood lipid, nourishes the heart
invigorates the circulation of blood, whets appetite,
benefits the spleen and enhances the memory, etc.
