Application instructions

Are you listening to the music by your mobile phone? Are you turning on or off the light by yourself? Are you still using the light that couldn't be dimmable?

If yes, means you are out.

The automatic LED Bluetooth music bulb light will make yourself comfortable and love your family. And it can make a great change of your family lighting system, and you will have a happy life.

Is it LED bulb? Or Mini-stereo ? Or it could be dimmable? Yes, all it is.

Although it is small, and can be hold everything. The functions are as follows:

1. When the LED light used for lighting, it can be mounted on the ceiling, as a wall lamp with adjustable brightness. And also could be adjusted to the lowest, as the night-light when you are sleeping. Besides, it can be used by remote control. That is very useful and convenient for the older people when they go to the bathroom at night.

2. When it used as stereo, just connect the 220V power supply and Bluetooth, then you will enjoy the wonderful music no matter where at dinning room, kitchen, bathroom or office.

Besides, the volume of sound could be adjusted as you like by remote control or mobile phone.

Applications:

Home usage: room, study, dinning room, kitchen, restaurant, bathroom, balcony and Gym etc.

If you are tired, just listening to a song and you will be relaxing.

Commercial usage: Mounting the LED light at store, supermarket, playing a soothing song, and it would be improved to a high level immediately.

Hotel usage: Mounting the LED light at dinning room with warm light, the guests can play some beautiful songs for fun by remote control or mobile phone and will not feel tired.

Business is unlimited, seize it, means seizing the wealth, Hurry up!

Product parameters-1

Electrical parameters:

Input voltage: AC100-240V

Input power: $\leq 10\text{W}$

Power factor: ≥ 0.5

Lamp tape: E26/E27/B22

LED power: 5W

Speaker power: 4Europe/5W

Dimension: D80*H135mm

Optical parameters:

Packaging technology: SMD 2835

Flux: 350 (LM)

Lamp beads quantity: 24

CRI: 80

Color temperature: 2700-6500 (K)

Dimmable or not: Yes

Light color: warm-white, white

Viewing angle: 180°

Lifetime: 30,000 (H)

Product parameters-2

Acoustic parameters :

Distortion rate :1 (%)
Speaker species :Mini
stereo speakers
Speakers structure: Sealed
Speaker Interface
Amplifier Type: Class D
Signal input: Bluetooth 3.0
SNR:101 (db)
Rated power:5 (W)
BT2 Impedance:4 (Ω)
Brand: ACESTAR
Sound frequencies :
48Hz-20K (HZ)

Bluetooth parameters:

Bluetooth
version:V3.0+EDR
Bluetooth program:
Chuangjie
Sensitivity:106dB
Transmission distance:
Accessibility \leq 10 meters
Bluetooth equipped against
password :0000
Bluetooth equipped against
name: Music light

Packaging parameters:

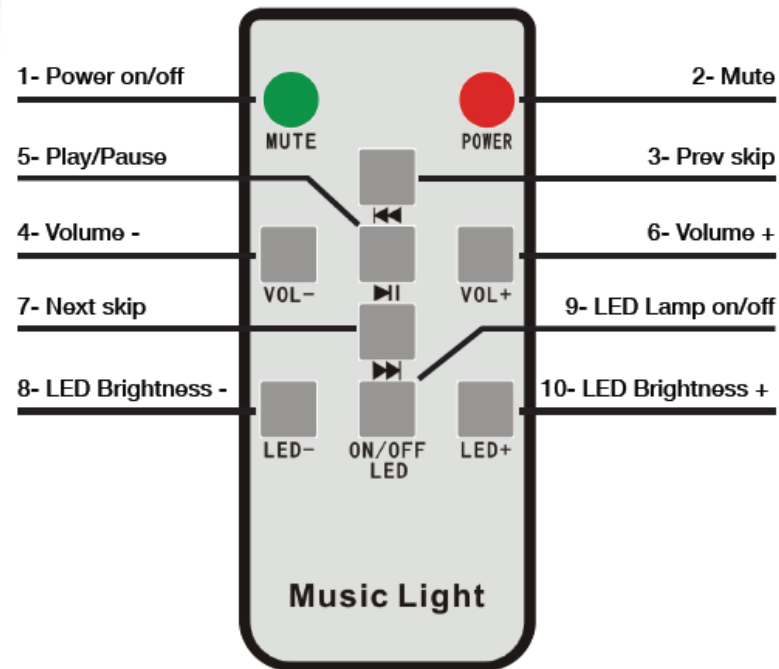

Size: 80*135 (mm)
Housing material: ABS+PC
Color: White
Single package:
Single weight: (Included
Accessories)
One box:
Carton: cm
Net weight: kg
