Jingmin 2 channels IS serial smart plug socket (6 types) help you start intelligent life

1.**Jingmin Digital 2 channels smart plug socket(6 types) can meet customer diverse application requirements, there is one type always right for you :** Serial port, USB, WIFI, Eternet(Lan), Wireless remote 315M and GSM.

2. **Commonly type: WIFI smart socket:** Max support 4 mobiles / pads control, the whole family can control. With WIFI hot function,PC/Android smart mobile/Pad can real time online control, both close range WIFI and long range wireless router can easy to control

3.**Each type can control following one's inclinations, control at anytime and anywhere:**Each type can be set time switch parameter online by computer, automatically work offline;Or real time manual control switch

4.**Each type can real time display the status of the socket :**Both socket indicator and software interface can display two channels working status of the socket, working status be clear at a glance

5. **2 channels + 1.5m default super thick high quality towing line design**,close application design, convenience for user connect to controlled equipment nearby.
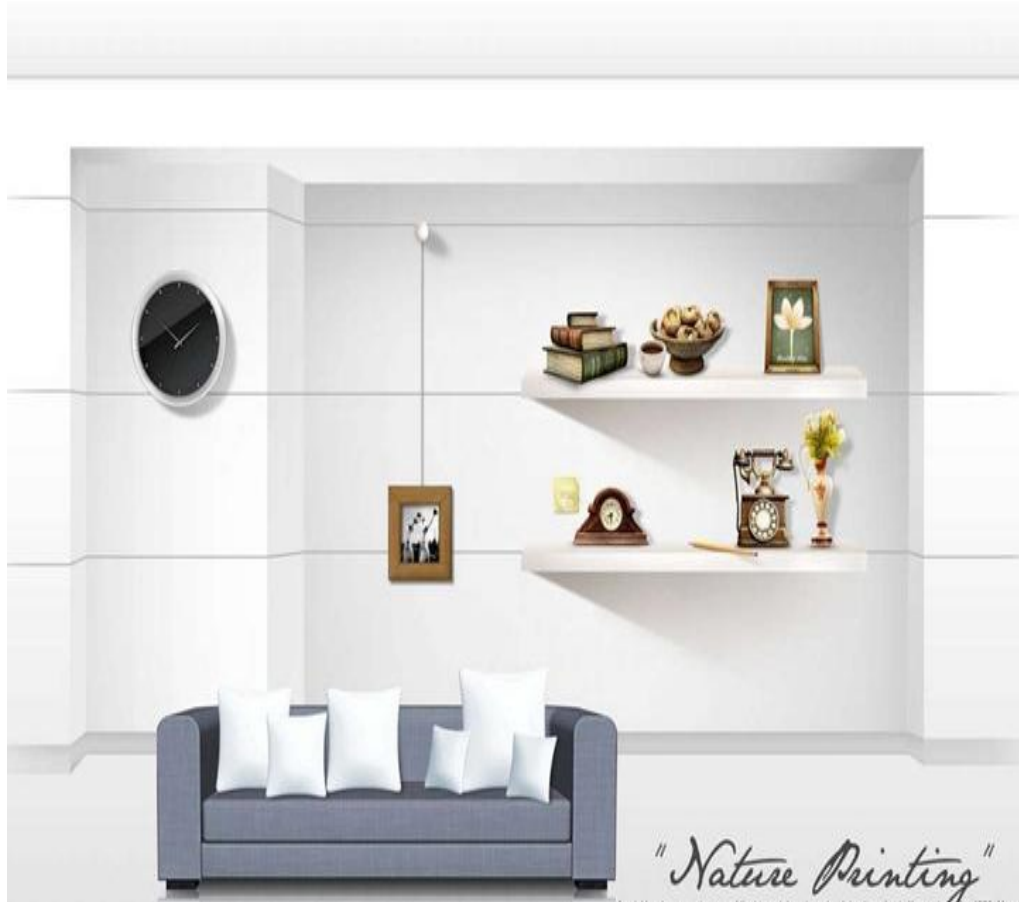

6. **Super power loading capacity:** Each socket connect AC220V 50HZ, the max loading power is 3KW, make sure the big power device work in safety.

7.**Each smart control expert control,professional, reliable and safety, you are worth have it:**Industrial grade anti-lightning,strong electromagnetic interference resistance, reliable without crashing, pass CE, safety.

8. **Easy to use, good practical, feature rich and widly application:**It is not only can meet your intelligent life requirments, but also can meet your industrial and commercial equipment power fast remote intelligent control requirements.

JMDM

Everything connected to the Internet just means, intelligent life is the goal

Want to stay in bed in the morning, impatient to waiting for the breakfast?

Inside a commuter city, home to cook, always eat dinner as a midnight snack?

Rush to go out but forgot to turn off the electricity, unsafety, how to do?

Flowers, travel unattended feed?

Jing min smart socket , the wisdom of your life essential artifact, help you to solve all the above requirements, and easy to intelligent household life!
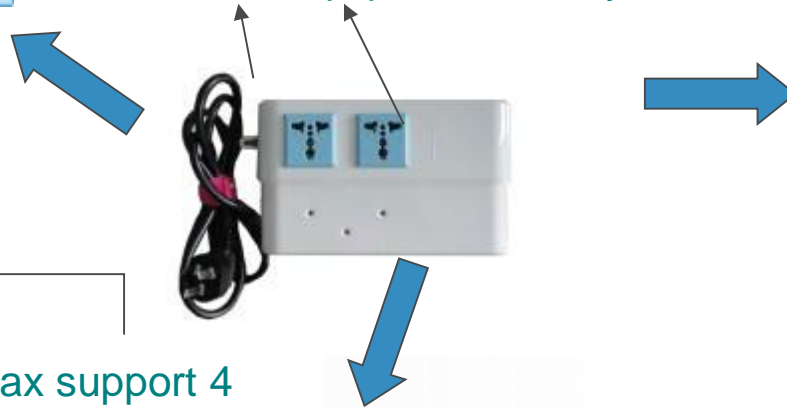

" Nature Printing "

JMDM

Six Features

u Support 10 group timing
   Suppoort 4 different recycle type:Every Minutes,Every day, Every week and specified date.

u Tow channels sockets and towing line desig:2 channels socket+1.5m default super thick high quality line design,close application design, convenience for user connect to controlled equipment nearby

u Porfessional reliabel safety: Industrial anti-lightning, strong electriomagnetic interference resistance, reliable without crashing, pass CE, safety.

u Max support 4 mobile control
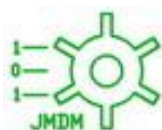

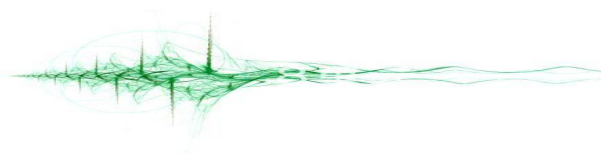

The whole family can control at the same time

JMDM

Six Features

Each can real time dispaly he working status of the socket, the working status be clear at a glance: Bithsockets interface can display two channels working status of socket, working status be clear at a glance

Power super loading capacity:
Each socket connect AC220V 50Hz, the max loading power is 3KW, make sure the big power device work in safety

JMDM

Six types selection

⊔Jingmin Smart socket, 6 types suit for 6 application requirements, there is one type always right for you

2 channels smart socket,6 types for selection can meet diverse application requirements: Serial port, WIFI, Ethernet, wireless 315M remote, GSM.
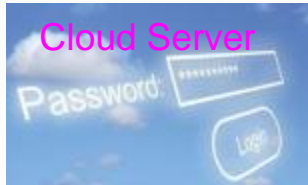

Commonly type: WIFI smart socket: Max support 4 mobiles/PAD control, whole family can control, with WFI hot function,PC/Android smart mobile/Pad real time online control, both close range WIFI and long range wireless router can easy to control!

close range wifi control directly

remote access cloud server control

Cloud Server

Password:

Each type can control following one's inclinations, control at anytime and anywhere:Each type can be set time switch parameter online by computer, automatically work offline, or real time manual control switch

JMDM

Application

Safety: Turn off the air conditioner, electric blanket, Water dispenser because run to go out but forget to turn off

Considerate: An hour each day, aquarium pets enjoy more regular more oxygen

Water the plants regularly, take care of your flowers for you

Caring: Turn on lights/electric water heater/Air conditioner/Rice cooker in advance, enjoy the warmth of the home in the home door of that a moment

wide application：
Meet smart hosehold life requirementS

Time switch outdoor billboard

Meet industrial and commercial equipments power remote intelligent control requirements

Realize room unattended, remote control

Remote intelligent control agricultural vegetable greenhouses, breeding greenhouse temperature and humidity, etc
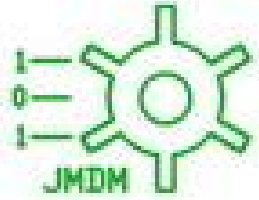

**Actually,
Intelligent life upgrade,
Such simple and effective,
A small set
let control time and home nearby so convenience!**
