

## ***feature***

buckle-free connection, no need for an extra steel seal, reducing the production cost.

The average tensile strength of the buckle-free connection is about 80% of that of a steel strap, which is very reliable and can save about 10% of the total packaging cost

Solid seal notch way can bear high weight

Easy to operate

Simple and small design parts can be replaced and maintain convenient

## ***parameter***

<b>Model Numer</b>	<b>A333</b>
<b>strap material</b>	<b>steel</b>
<b>strap Width</b>	<b>12.7-19mm</b>
<b>strap thickness</b>	<b>0.38-0.58mm</b>
<b>weight</b>	<b>3.9kg</b>
<b>joint strength</b>	<b>about 80%</b>
<b>seal notch way</b>	<b>buckle free</b>
<b>steel quality</b>	<b>850N/MM2</b>
