

The Specification of the Down Lamp

Character of Product

1The cover is made of the imported no.6063 aluminum material,the heat radiation better,light-declining less,lifetime longer.

2Special structure design for assure the best lighting efficiency.

3High efficient PMMA lens,efficiency of lightingsis special and comfortable.

4Constant current drive systems protecting the circuit and assure the Luminious maintenance rate.

5Imported LED ggk clip,no radiation,no heavy metal pollution,excellent performance,pure color.

6Accordence with the testing standard of CE,UL,ROSH,and FCC.

Product specification

Item No	EBT-TD-01
Total Power	3W/5W/7W/9W/12W/15W/18W/21W/24W
Working Voltage & working Frequency	AC:90-305V/50-60Hz
(PF) Power Factor	≥0.95
Drive Power Efficiency	≥92%
Installation Size	2.5/3/3.5/4/5/6/8
Color Temp	4000K/5000K/6000K
CRI	> 80
Luminious Efficacy	> 100lm/w
Beam Angle	5° /15° /25° /30° /45° /60° /120°
Operating Environment	-40-+50°C
Lifetime	50000 hours
IP	IP65

Application

Hotel,restaurant,exhibitionhall,shoppingmall,specialitystores,Supper market. Corridor,office,house etc.
