

Gravure Chrome Polishing Machine

HJ Chrome polishing machine is used for the polishing of chrome cylinder, it is the new full automatic numerical control model that developed by the rich experiences of designers and modern brainpower numerical control technique. Their features are rigorous structure, stable, high efficiency, easy operation, etc.

Features:

1. There are full-auto, semi-auto and economical type
2. Polishing head structure: Frequency modulation elasticity addition pressure
3. Advanced controlling system
