To the kind attention

Subject: Quotation Fully-Automatic stretch film rewinding machine 1300AR.

Main technical specifications:

- Workability material low-density polyethylene LLDPE, VPC.
 - Works lights 500 mm.
 - Max dia mother-reel (jumbo) max 600 mm.
 - Internal dia mother reel (Jumbo) 76 mm.
 - Max dia coil wound 180 mm.
 - Dia mandrels: 38 mm.
- Mandrel converter device from 38 to 50 or 76, It should insert to the fixed mandrel dia 38.

Main details:

- Frame depth 40 mm.
- N° 6 Feet dia 160 mm.
- Hand adjustable hopper for Cardboard core with internal dia 38/50/76 mm.
- Incision with warmed blade regulated by the potentiometer and air compressed.
- Span to work 500 mm.
- Unwinding spool diameter 600 max. mm.
- Cardboard core diameter 76 mm.
- Winding spool diameter 180mm.
