

Parts of machine Mainly Body

PLC system	LG/ Mitsubishi
Bear	NSK
Seals	Hallite (England)
Cylinder	China
Motor	China
Pump	China
Steel	Bao Steel
Hydraulic Part	Japan brand in China
Electrical components	Schneider
Tubing /pipe	China

Specification :

Open-end design for conveniently ejecting the bales out
 PLC control system, simplifies the operation and promotes accuracy .
 It can match the conveyor and make automatic conveying device
 Stability hydraulic system, make the machine more safety and durable.

Model	NKW40
Compress Power	40T
Bale Size(W*H*L)	720*720*(500-1500)MM
Feed Opening Size(L*W)	1000*720MM
Bale Weight	200-350kg/bale
Bale Density	200-300kg/m3
Capacity	1-2T/H
Bale Line	4 line manual strapping
Out-Bale Way	Continuously push bale
Power	15KW/20HP
Oil tank	460L
Max system pressure	15Mpa
Cycle time	22second
Tie wire line	4 lines iron wire
Machine size (L*W*H)	6190mm*1600mm*1900mm
Machine Weight	4500KG

Conveyor :

Belt conveyor	Size	800 mm (W) *8000 mm (L)
	Motor power	2.5KW
	Control way	Automatic / manual
