

6m telescopic mast light system

Model #: SM-6000-4000

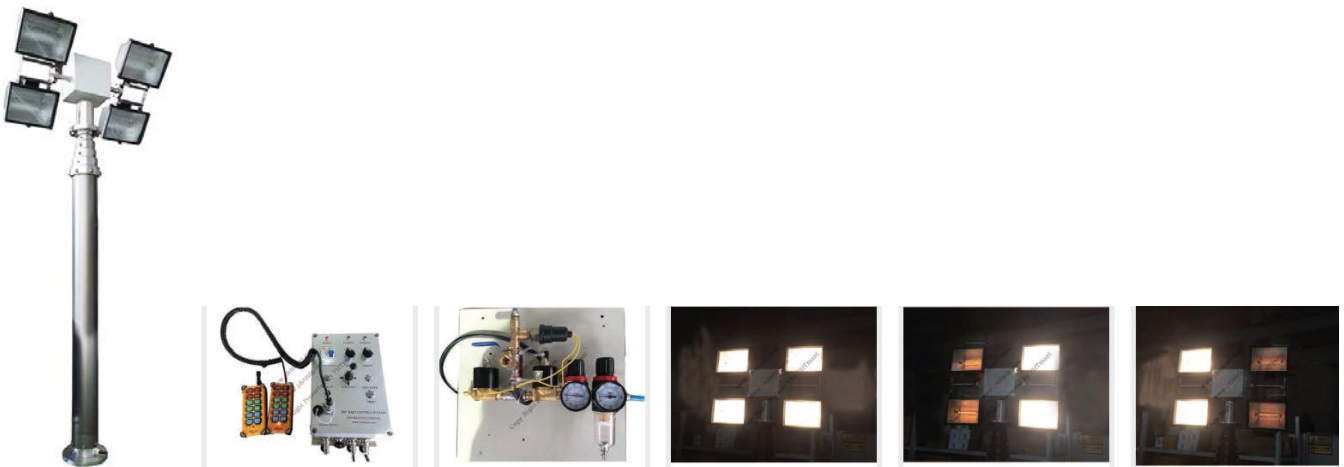

Whole system including:

- 1x 6m pneumatic telescopic mast with inner spiral cables
- Remote control turn tilt system
- 4x1000W halogen lamps
- Control system: control box, remote control, and wire control, electric air compressor

Introduction:

Part #: SM-6000-4000 (order #: 010110)

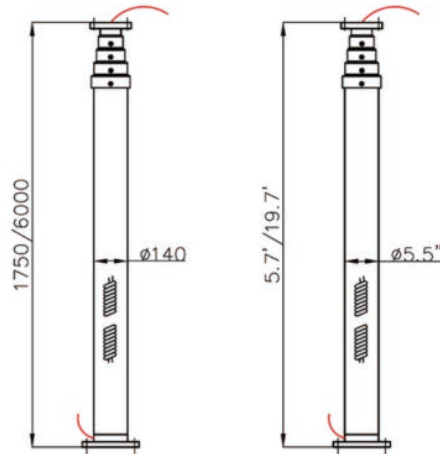

6m Vertical Mount Pneumatic Telescopic Mast Lighting Tower-4x1000W Halogen lamps

Features:

- pneumatic telescopic mast
- 6m extend/1.75m retracted/ inner spiral cables/5 sections/section dia. 66~140mm/aluminum materials
- 4x1000W Halogen Lamps (LED Lamps available)
- 360 degrees turn and tilt / automatic restore function
- remote control by wireless controller, cables controller, box panel controller
- AC220V/50Hz Power Supply

1> Lighting Mast:

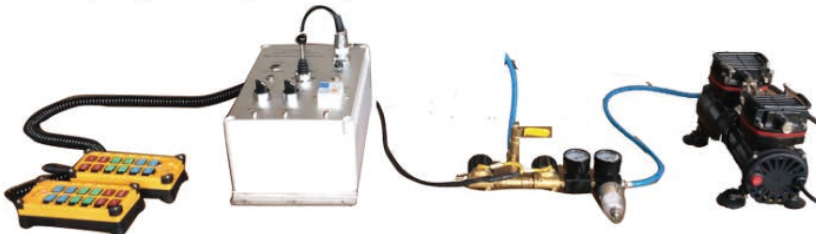

- 6m extended height pneumatic telescopic mast,
- 1.75m retracted height
- internal spiral power cables
- 5 sections, section dia. 66mm~140mm
- aluminum alloy materials 6063T5, mast anti-rotation
- work temperature: -25~85 Deg.C

**2> Lamps system**

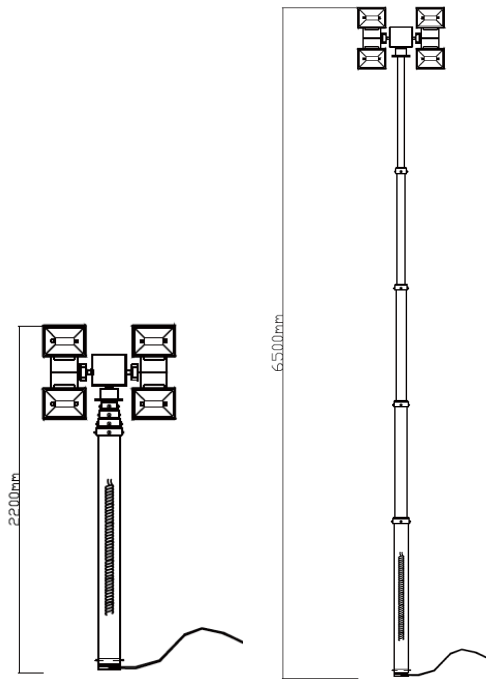

- 4 x 1000 W Halogen Lamps

**3> Control system:**

- Lamps 420 degrees horizontal turn and vertical Tilt by remote control (wire or wireless)
- Mast Extension/ Retraction controlled by control box or remote control panel,
- Lamps light on/ light off by remote control

**4> Power Supply: AC 220V/50Hz****5> System Weight: 80kg approx.**

Dimension:

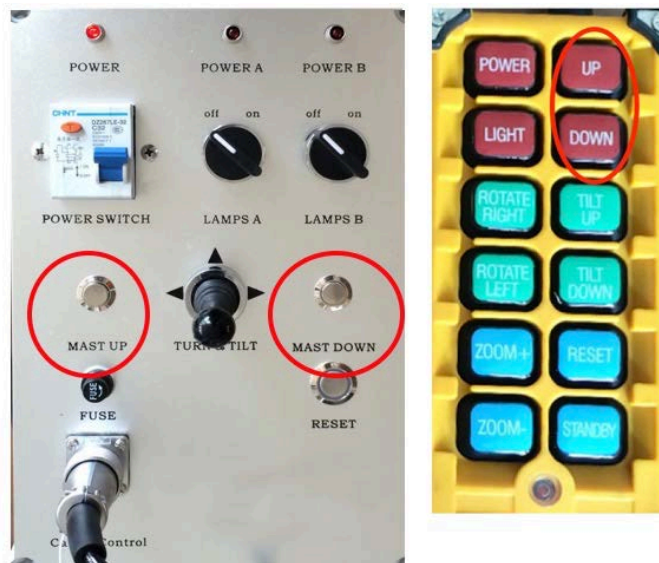

Operation:

1> SWITCH POWER ON

2> Mast Extend/Retract

3> Lamps light on/off

Lamps A group light on/off

Lamps B group light on/off

POWER: Lamps A group light on/off

LIGHT: Lamps B group light on/off

4> TURN TILT

Turn in horizontal: left and right

Tilt in vertical: up tilt/down tilt

Reset: automatic restore to original position

5> SWITCH POWER OFF
