

## **- HOW TO CUSTOMIZE YOUR OWN TUNES,**

### **-Developing Steps**

A) Send us the music files, the staff or the Midi file will be better. 8~12 seconds music is suitable length for Mini 18 note model, 12~20 seconds is suitable for Standard 18 note, 12~15 seconds is suitable for deluxe 18 note, 27~35 seconds is suitable for 30 note, 48~58 seconds is suitable for 50 note model.

B) if your file is suited, we will develop according to your file and send you a new midi file for your confirmation within a week. (We may make some changes as the characteristic of mechanism)

C) You check our new midi files, if pass, finish developing. If not, we continue to discuss and develop, and send you another new midi file again until it's confirmed

D) If all are ok finally, place your order, and we need to take a month to make the mold and produce the mass.

By the way, For some types, we can make some hand-samples for your "Twice confirmations", but it will increase the cost.

### **- Developing Cost**

Developing cost, US\$300 ~US\$1000 according to the order quantity and different model.
